</tbody>
</table>
Award Information

• Letters of Intent and full applications must be submitted through the EERE Exchange at:

  https://eere-exchange.energy.gov

  EERE’s Online Application Portal

• The Users’ Guide for Applying to the Department of Energy EERE Funding Opportunity Announcements is found at:

  https://eere-exchange.energy.gov/manuals.aspx
Award Information

• Estimated Funding Available
  – $2.85 million available
  – Number of awards will depend on award size

• Individual Awards will vary between approximately $50,000 and $1,000,000, with a typical award size of $400,000.
### Award Information

<tbody>
<tr>
<td>Period of Performance</td>
<td>Up to 24 months to deliverable date</td>
</tr>
<tr>
<td>Eligible Applicants</td>
<td>Federal agencies and sub-agencies, subject to the definitions in Section III.A.</td>
</tr>
</tbody>
</table>
### Cost Leverage Requirement

At least 50% of total project costs
- From either federal or non-federal sources
- Energy savings performance contract or utility energy services contract private sector financing is strongly encouraged.

### Submission of Multiple Applications

Applicants may submit more than one application to this FOA, provided that each application describes a unique and distinct project.

### U.S. Federal Agencies Only

The AFFECT FOA will provide direct funding to federal agencies for the development of combined heat and power or renewable energy capital projects at agency facilities.
Letter of Intent
Due April 6, 2015
5pm Eastern Time
Letter of Intent

- One Page Letter with:
  - Project Title
  - Project Location(s)
  - Lead Organization
  - Anticipated Project Budget (EERE and Cost Leverage)
  - Anticipated Project Duration
  - The Project Team, including:
    - The Principal Investigator (PI) for the Applicant
    - Key Participants (i.e., individuals who contribute in a substantive, measureable way to the execution of the proposed project).
  - Abstract – The abstract provided must be no longer than 200 words in length, and must provide a truncated explanation of the proposed project.
Full Application
Due
May 20th, 2015
5pm Eastern Time

Project Narrative

- Formatting requirements (pages 13 & 14 of FOA)
  - PDF Format Only
  - 12 point Times New Roman font
  - 1 Inch Margins
  - Footnotes must be 10 point font
- Maximum 10 page length limit
  - Pages over 10 will be disregarded
- The Narrative must include the Control Number on all 10 pages (Control number is issued after the letter of intent is submitted).

Form SF-424 is Required
Application for Federal Assistance

• Certifications and assurances can be found at:

  DOE Budget Forms
  » SF 424 Research & Related Budget (R&R) - 3 Year and 5 Year Forms Available

• Save the document SF-424 in a single file, titled per instructions on page 16 of FOA (Control Number_LeadOrganization_APP424).
Projects must demonstrate they are life-cycle cost-effective through a life-cycle cost analysis (LCCA):

- Must adhere to 10 CFR 436, Subpart A:
  [http://www.law.cornell.edu/cfr/text/10/436/subpart-A](http://www.law.cornell.edu/cfr/text/10/436/subpart-A)

- Must calculate life-cycle cost-effectiveness in accordance with 10 CFR 436, Subpart A using the Building Life-Cycle Cost (BLCC) software program or equivalent.
  [https://www1.eere.energy.gov/femp/information/download_blcc.html](https://www1.eere.energy.gov/femp/information/download_blcc.html)
Letters of Commitment

- Control Number
- Lead Organization
- Project Partners
LEVERAGING Dollars

- The agency requesting financial assistance must provide **at least 50%** of the total allowable costs for the project:
  - The sum of the EERE share and the recipient share of allowable costs equals the total allowable cost of the project
  - Leveraged funds may come from either federal or non-federal sources.
  - Private sector cost leveraging through an alternative financing mechanism—such as an ESPC or UESC contract—is strongly encouraged.

- The leveraging budget and how the leveraged funds will be spent, including the verification, must be included as a separate file per section IV.C.1. (See page 16 of the FOA).

- Include the control number and the lead organization on the separate file.
## Merit Criteria

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Weighting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project Impact</td>
<td>30%</td>
</tr>
<tr>
<td>Cost Leverage</td>
<td>25%</td>
</tr>
<tr>
<td>Technical and Economic Merit</td>
<td>25%</td>
</tr>
<tr>
<td>Project Management Plan and Budget</td>
<td>20%</td>
</tr>
</tbody>
</table>
Project Impact 30%

- The degree to which the proposed project results are conducive to broader adoption at other federal facilities and impact the direction, strategy, and thinking of the agency to engage in similar efforts at other federal facilities.

- The potential and likelihood of the proposed project to substantially move the site and/or agency toward the achievement of energy-related goals as set forth by the federal statute as reflected in annual reporting requirements such as the OMB Sustainability and Energy Scorecard.

- Impact that EERE funding would have on the proposed project.
Cost Leverage

- Extent and efficiency with which the project leverages EERE funds under this award with committed agency-appropriated funds and/or financing from other non-federal sources.
### Technical and Economic Merit 25%

- Identify, describe, and analyze the proposed project, including its projected probability of success.

- Describe the proposed site(s), baseline system(s), and project history and current status.

- Technical and economic benefit of the project as compared to the current baseline system at the proposed site(s).

- Technical and economic viability, including energy and cost savings, cost-effectiveness, relevant supporting data, reasonable assumptions, and discussion of prior efforts that support the validity of the project.

- Adequacy of life-cycle cost analysis per Section I.D.

- Discussion and demonstrated understanding of the project through the identification of key project risk areas (including but not limited to technical, financial, system integration, and environmental risks) and the quality of the mitigation strategies to address them.
Merit Criteria

Project Management Plan and Budget 20%

- Approach and Proposed Work Plan
- Team
- Resources
- Budget
Project Performance Targets

- Final Deliverable
- Project Reviews
- Project Schedule
- Project Impact
- Life-Cycle Cost Analysis
- Bundled Projects
Performance Targets

Funding will not be released until the final deliverable is achieved

- Funds will only become available AFTER THE FINAL DELIVERABLE HAS BEEN ACCOMPLISHED TO THE SATISFACTION OF EERE
- If the final deliverable is not met, the award may be terminated.
### Examples of Final Deliverables

- Will include, but not be limited to, a contract or task order award.
- An equipment purchase order.
- The receipt, review, and acceptance of a final proposal.

### Final Deliverable will NOT INCLUDE

- Activities related to the installation, construction, commissioning and operation of the project.
- Data collection of the proposed system.
- Maintenance of the proposed system.
Project Schedules Should be Challenging and Achievable

- Overly aggressive and unrealistic schedules must be avoided.
- Awards may terminate or be cancelled if not on schedule.
- An overly conservative schedule is discouraged; the project must be timely.
- The project schedule will be finalized during award negotiations and must be achievable.
Project Impact

• Projects must demonstrate that the experience gained through the proposed project will serve as an example that can lend itself to similar efforts at other federal sites.

• Projects will be evaluated on the merits of the proposed project AND the ability of the project technology and lessons learned to be utilized at other federal sites.

• Projects must demonstrate how lessons learned can be applied to future projects.

• Show how the project itself has impact on achieving clean energy goals.
• Technical Assistance requests can be made at https://www4.eere.energy.gov/femp/assistance/

• For Renewable Technologies, assistance can include: prescreening, feasibility studies, interconnection studies, contract assistance and more.

• During the application period, applicants must fund technical assistance themselves.

• Non-applicants can apply for FEMP funding of technical assistance
