

Request for Information (RFI): Draft Marine and Hydrokinetic Program Strategy

DATE: December 21, 2016
SUBJECT: Request for Information (RFI) DE-FOA-0001721

Description

The Department of Energy (DOE) Office of Energy Efficiency and Renewable Energy (EERE) Water Power Technologies Office (WPTO) is seeking input from stakeholders on a draft Marine and Hydrokinetic (MHK) Program strategy.

Background

DOE's WPTO is developing an MHK Program strategy that looks ahead from the present through the near, mid and long-term. The strategy will guide EERE's efforts to effectively address barriers to commercialization and accelerate the deployment of promising MHK technologies. Stakeholder input received during a public meeting on April 27, 2016 and an earlier RFI (DE-FOA-0001570) were used to refine WPTO's MHK Program strategy, which can be found as a supporting document to this RFI uploaded on EERE Exchange at <https://eere-Exchange.energy.gov/>. EERE is requesting additional feedback on this topic, as WPTO moves to finalize the MHK Program strategy.

Purpose

The purpose of this RFI is to solicit feedback from industry, academia, research laboratories, government agencies, and other stakeholders on how to improve the draft MHK Program strategy so that it can be most impactful for the nation. The draft MHK Program strategy can be found as a supporting document to this RFI uploaded on EERE Exchange at <https://eere-Exchange.energy.gov/>. EERE is specifically interested in information on core challenges for the industry and the approaches, strategic goals, and ongoing and future phases WPTO has proposed to support MHK commercialization in the United States. This is solely a request for information and not a Funding Opportunity Announcement (FOA). EERE is not accepting applications.

Disclaimer and Important Notes

This RFI is not a Funding Opportunity Announcement (FOA); therefore, EERE is not accepting applications at this time. EERE may issue a FOA in the future based on or related to the content
